

WASTE

I find it appalling that there are still places that do not recycle at all

ELECTRICITY

0.8kWh a day can be saved using a 15W CFL bulb

WATER

Between the kitchen sink, toilet, and shower, hundreds of litres of water is wasted each week.

Daily Actions In Terms Of the Environment

TRANSPORT

On average I travel 200 miles a week.
That equals 95kg of carbon for one week's travel.

CARBON FOOTPRINT

My Consumption equivalent to 3.1 planet earths.

World Avg. Is 1.3 Earths
These figures only include transport and electricity
